

DC Project

The DC Project is an educational, nonpartisan initiative of women from every state establishing relationships with their legislators to reveal the faces and stories of firearms owners and 2nd Amendment supporters.

Goals of the DC Project

- ✓ Give legislators an opportunity to speak with a gun rights supporter and have a contact for information or education on firearms-related topics.
- ✓ Encourage the preservation of America's gun culture, from conservation and commerce to competitive sports, hunting, and self-defense.
- ✓ Implementing gun safety in America through education not legislation.
